

BCM Dial by Name

Overview:

BCM Dial by Name provides a company-wide, instantly accessible telephone directory to every BCM user in the business. The directory can be accessed by all BCM users, via a BCM handset or a PC DeskTop client. The DeskTop client provides enhanced functionality such as call control and on screen search.

Benefits of BCM Dial by Name:

- Ensures that you maximise your investment in your new phone system
- You can quickly search a central directory and dial contacts directly from your phone or PC
- The contact directory is held on a non-dedicated PC so there is no need for extra hardware
- Contacts can be updated via the DeskTop client by the extension user
- Calls can be answered in an informed and professional manner as the caller's details are displayed on the phone and DeskTop client
- Click to Dial allows you to highlight any number on the screen (in Word, Web, Outlook, etc) and dial
- Buddy Lists and Visual Speed Dials provide single click access to contacts and show their real time status
- Review and redial facility reduces time wasted
- Eradicate dialling wrong numbers
- Single site licence means you can add extra users at no extra cost

Features of BCM Dial by Name:

Handset features

- Accessible on all BCM phones with LCD display
- Dial a contact by simply spelling their name
- See who's calling by name, not number
- Review and redial up to 32 recent calls
- Store over 30,000 contact numbers

DeskTop features (optional)

- Search and dial via the DeskTop client
- Create and update contacts on screen
- Simple on screen call control and dialling
- Click to Dial – highlight on-screen numbers and dial
- Buddy Lists show your contacts' real time status
