

BT Billing Analyst

Overview:

BT Billing Analyst is an exceptionally clever and simple to use software application that takes the data from your BT One Bill Plus to produce instant management reports. You can tailor these reports to reflect your organisation's cost structure or investigate individual lines and calls in as much detail as you need.

Reasons to have BT Billing Analyst:

- Review your communications spend quickly and easily, with succinct management reports organised to reflect your cost hierarchy
- Make real cost savings by simplifying payment processes and reducing administrative overheads – freeing up people to do jobs that are more important
- Make fact-based business and budget decisions
- Includes Sage interface and integration
- See zero-usage lines with the potential to make immediate cost savings
- Gain a strategic overview of your entire communications estate
- Prepare your organisation for convergence by understanding your current position and making informed decisions on updating systems and introducing new technologies

Features of BT Billing Analyst:

- Easy to use and powerful program that runs on your PC with One Bill Plus
- Can interrogate billing data in numerous ways and show you an overview trend summaries or details of individual calls
- Some things you can do with BT Billing Analyst:
 - Investigate telephone usage down to individual calls
 - Create reports tailored to your business needs
 - Export, sort, filter and print
 - See graphical representations of key call trends
 - View call analysis of your phone landlines, mobile phone usage and calls to Directory Enquiries
 - Obtain new Private Circuit reports
 - Investigate costly private and out-of-hours calls
 - Analyse your FeatureNet data
 - Automatically run regular reports, to print or circulate in electronic form

Price:

There is no extra charge for BT Billing Analyst software, providing you are a consolidated OneBillPlus account customer.
