

BT BlackBerry Services

Overview:

The BT BlackBerry® Services portfolio consists of three key products:

- BlackBerry Internet Service¹
- BlackBerry Enterprise Server²
- BlackBerry Professional Software³

BlackBerry Internet Service

Ideal for single employees to small companies, it's an internet hosted service that gives you the freedom to stay connected virtually anywhere and at anytime, with everything you need right at your fingertips. Enabling you to send and receive email on the move, access your contacts, calendar information and the web, BlackBerry Internet Service ensures you're available when you're out and about, for the people who matter most.

BlackBerry Enterprise Server

With a BlackBerry Enterprise Solution-enabled wireless handset there's no dialling-in and no telephone or modem to attach. Designed to remain on and continuously connected to the wireless network, your handset will have email and other corporate data delivered to it automatically.

The solution employs a BlackBerry Enterprise Server which, with its Mobile Data features, provides wireless access to a your company's databases (sales, expenses, customer history, timesheets), intranet information, business intelligence, document management systems and enterprise applications

BlackBerry Professional Software

BlackBerry Professional Software is a new edition of the trusted and proven wireless solution, optimised for businesses with up to 30 mobile employees. It's easy to set up and control, and combines the right mix of price and features. It's ideal for growing businesses that want to take advantage of the benefits of BlackBerry solutions, offering the perfect combination of enterprise features and low cost.

Reasons to have BlackBerry Services

- Dedicated single point of contact for all queries
- Expert technical support
- Unrivalled international coverage
- Dedicated data specialists state-of-the-art handsets
- Excellent and competitive voice tariffs
- Unlimited⁴ data usage included
- Priced right to suit customer needs
- Designed to be easy to set up and manage, so people can focus on running their business not on managing a mobile solution
- Relax knowing you have complete control over your BlackBerry smartphones and the advanced security that businesses of every size need
- Provide individual solutions to everything a small to medium-sized business needs in a mobile solution: email, calendar, contacts, internet and more
