

BT Computing Systems

Overview:

BT Business provides computing systems for small and medium-sized businesses. Through BT, business customers can procure a wide range of competitively priced hardware including servers, PCs, laptops and peripherals from leading manufacturers including HP and Intel. The current range of Microsoft® operating systems and desktop applications can also be provided, including Small Business Server 2008 and 2003, and Vista Business. Volume software licences are also available.

Reasons to choose BT Computing Systems:

- We help customers select the right systems for their business so they can get back to doing what they do best – managing their business
- Competitively priced, 'business grade' systems
- Billed via standard BT billing system
- Backed by IT support services to suit your business
- Range of finance options

Features of BT Computing Systems:

- Latest computer hardware and software from leading manufacturers
- Product sourced from multiple distribution channels to ensure maximum product availability

Price:

BT will review the needs of your business and tailor a solution that best suits your requirements. Pricing available on request (terms and conditions apply).
