

BTnet Premium

Overview:

BTnet Premium offers a highly reliable, flexible fixed Internet access service over a wide range of technologies and connections across the UK.

Reasons to use BTnet Premium:

- **Reliability** – High quality, reliable Internet connection
- **Resilient** – Full range of resilience options available, giving you total peace of mind for your mission critical connectivity
- **DDoS mitigation** – To protect your service against Distributed Denial of Service (DDoS) attacks
- **Secure** – Our networks are under constant review to take into account new threats and vulnerabilities
- **Easy payment** – Free connection available on long term contracts (subject to survey)
- **Bandwidth options** – Symmetric and asymmetric offering where the outbound bandwidth requirement (from your site to the internet) is greater than the inbound bandwidth, which means you only pay for what you need

Features of BTnet Premium:

- Uncontended bandwidth – no sharing of bandwidth with any other customers
- Service Level Agreement – around-the-clock support
- Flexibility of bandwidth within access class – only pay for what you need
- Access speeds – a range of bearer speeds are available to deliver the required bandwidths
- BTnet bandwidth utilisation/performance reports at no extra charge
- One, three and five year term contract options
- Static routed IP addresses included free of charge within standard service pricing

Price:

BT will review the needs of your business and tailor a solution that best suits your requirements.
