

Virtualisation solutions from BT Engage IT

Overview:

BT Engage IT helps build a complete Application Ready Infrastructure delivering true business agility to control and optimise the delivery of applications, services and data across the network. These services can be located on-site, hosted by us or held elsewhere.

Virtualisation can form a fundamental part of this solution with virtualised server, storage, network, application and desktop services being available. BT Engage IT will design, build, deploy and can manage the whole lifecycle, to suit the needs of your business. We are a Citrix® and Microsoft® Gold Partner as well as a VMware® Premier and VMware Authorised Consulting partner plus we have expertise in all the leading storage hardware and software technologies, all of whom offer virtualisation capabilities.

Reasons to have a virtualisation solution from BT Engage IT:

- Reduced total cost of ownership from consolidation of hardware, software and applications
- Heat, power and environmental savings
- Increased operational efficiencies, business agility and responsiveness

Benefits of a virtualisation solution from BT Engage IT:

- Implement end-to-end management of the infrastructure
- Consolidate and simplify IT environment
- Reduce costs
- Increase manageability and availability of IT infrastructure and related services
- Gain environmental efficiencies
