

WinScribe®
for BlackBerry®

Overview:

With over 350,000 users, WinScribe is a world-leading provider of digital dictation software supporting business requirements for digital dictation, digital transcription, voice recognition, and workflow management. As more customers migrate from tape-based systems, WinScribe is taking the lead in delivering a next-generation solution enabling multiple organisations to easily improve dictation workflow and employee performance.

Enabling greater collaboration, enhanced productivity and more proactive responsiveness is the foundation to improved business performance. To achieve these benefits, it is important that organisations connect their mobile workforce with their core business applications such as internet, email and dictation.

With this in mind, WinScribe has developed WinScribe for BlackBerry Smartphones, a dictation application offering a sleek interface for dictating on BlackBerry mobile devices. WinScribe for BlackBerry Smartphones is part of the comprehensive WinScribe Mobility Suite.

Reasons to have WinScribe for BlackBerry:

- Anywhere, anytime dictation and review/minimise lost time and productivity when out of the office and achieve a more proactive response to clients
- Easy to use with fully featured, finger touch control
